Subject – South Carolina Second-Generation Anticoagulant Rodenticide (SGAR) Restrictions

Under South Carolina state pesticide regulation Chapter 27-1075 Section B, the Director of Clemson University's Department of Pesticide Regulation (Clemson DPR) has the discretion to implement additional regulations (beyond the EPA). By this authority, Clemson DPR has designated the following four SGAR rodenticide active ingredients as restricted to DPR-licensed pest control dealers and applicators only statewide beginning February 1, 2025.

- Brodifacoum
- Bromadiolone
- Difethialone
- Difenacoum

To comply with these restrictions, **Neogen will be limiting sales of its SGARs: DeciMax®, Havoc®, Judgement™, and SureKill® Command brand End Use rodenticides to ONLY licensed pest control dealers in South Carolina beginning February 1, 2025.**

Please Note: Distributors and/or Retailers who sell SGARS in South Carolina, including through e-commerce, are responsible for ensuring compliance with these restrictions. Restricted products must NOT be sold in South Carolina other than to licensed pest control dealers.

Neogen Rodenticide Products Impacted by the restrictions imposed by Clemson DPR:

End Use Products	
DeciMax Soft Bait	DeciMax Blocks
DeciMax Place Packs	Havoc Rodenticide Bait Packs
Havoc-XT Blok	Havoc Attack Blocks
Havoc Pellets	Havoc Rodenticide Bait
Judgement Soft Bait	SureKill Command Blocks
SureKill Command Place Packs	

If you have any questions, please contact your Neogen representative.

Sincerely,

Michael Voss
